

Corrections for S08 Sprinkle Lace Cardigan

August 2006

Back

Piece should measure 12.5[13,13.5,14.5,13.5,14.5] inches from CO edge just before Shape Armholes.

In the Shape Neck and Shoulders, instructions are correct EXCEPT for the second size, Size Small. For Size Small, pattern should read: k14, k2tog, k2, then place next 24 sts on holder for back neck and rem 18 sts on a holder for LH shoulder. Short row instructions are correct except last row should read: Last row: p all 14 sts, picking up wraps. For LH shoulder, the last 2 rows should be: k all 14 sts, picking up wraps, then p 1 row even.

Left Front

Piece should measure 16[17,18,19,19,20] inches from CO edge at the end of the Shape Armholes paragraph. This is also incorrect on the schematic.

For Size Small, there will be 14 (not 15) sts remaining after neck decreases are complete. For all sizes, eliminate the decreases in the Shape Shoulder instructions. Instead, work as follows. *Shape shoulder:* p to last 4[5,6,7,7,7]

sts, w&t. Next row: k. Next row: p to last 8[10,12,14,14,14] sts, w&t. Next row: k. Last row: p, picking up wraps.

Right Front

Piece should measure 16[17,18,19,19,20] inches from CO edge at the end of the Shape Armholes paragraph. This is also incorrect on the schematic.

For Size Small, there will be 14 (not 15) sts remaining after neck decreases are complete.

For all sizes, eliminate the decreases in the Shape Shoulder instructions. Instead, work as follows. *Shape shoulder:* k to last 4[5,6,7,7,7] sts, w&t. Next row: p. Next row: k to last 8[10,12,14,14,14] sts, w&t. Next row: p. Next row: k, picking up wraps. P 1 row even.

Sleeve

Rate of increase is incorrect as written. After you work the 7 rows even for 3/4-length sleeves (or 29 rows even for long sleeves), inc 1 st each edge every RS row 8 times, then every other RS row 2[4,4,4,4,4] times.
